WHO WE ARE

PROFILE

Q-Park is a leading off-street parking infrastructure owner and operator with well-managed commercial parking facilities across seven Western European countries. We operate off-street parking spaces we own, have under concession or with lease contracts from public and private landlords. We focus on off-street purpose-built parking facilities at strategic locations.

The seven countries in which we operate are the Netherlands, Germany, France, Belgium, United Kingdom, Ireland and Denmark. We are present in over 360 cities, have more than 5,300 parking facilities in our portfolio comprising over 1 million parking spaces. Based on publicly available industry data for

our competitors, we estimate that we are a top three player in terms of estimated off-street revenues in all the countries in which we operate.

Besides operating off-street parking facilities we also offer:

- Off-street parking management
- On-street parking and kerbside management
 - EV charging points
- Parking as a Smart Service (PaSS) platform
 - an industry leading seamless parking service; and
 - a fully integrated cloud-based digital infrastructure.

Q-Park market position

Based on (estimated) off-street revenues.

We demonstrate that effective regulated and paid parking combined with smart tariff plans, and pre-booking propositions along with digital access and payment services, makes an economic and sustainable contribution to cities and society. Effective regulated and paid parking positively influences how people enjoy their urban visit, journey, shopping, commute or residence.

Energy & Mobility transition

Within our focus area 'Urban liveability' we have listed our efforts on renewable energy procurement, production and storage, supporting Europe's energy transition. This means moving away from fossil fuels to greater use of renewable energy, thereby reducing greenhouse gas emissions.

Our focus area 'Sustainable mobility solutions' demonstrates our ambition to play our part in Europe's mobility transition. Firstly, because our mobility hubs, parking facilities (PFs) and EV charging points are an essential part of a sustainable urban mobility infrastructure. And secondly, because we offer a variety of alternative modes of transportation in or close by our PFs through substantial partnerships with public transport providers, micromobility sharing/rental providers and car sharing/rental providers.

And with our focus on 'Seamless parking services' we ensure that our digitalisation and innovation efforts are geared towards a seamless parking experience for our customers. Providing digital access and payment services, via our tools or payment services of our partners.

A strong sense of corporate social responsibility (CSR) is embedded in everything that Q-Park does as a company. It underpins every major management decision, every new project, and every engagement we have with our community of users. It's part of our Quintessence, which is how we bring together all of our ideas about regulated and paid parking, and about how we work with our partners and stakeholders to contribute to the quality of life in our cities.

Quintessence

Cities are the undisputable engines of Europe – and these engines are increasingly becoming choked. Regulated and paid parking are therefore logical choices for cities faced with the following five challenges: Mobility – Facility – Society – Economy – Environment.

The Q-Park Quintessence is about regulated and paid parking as a solution for these five urban challenges as it is a particularly effective instrument for influencing mobility and keeping the urban engine from ticking over.

Quintessence – literally - fifth essence, the idea.

Our Quintessence is to guide those who are interested along the way of understanding 'the logic of regulated and paid parking'. As a mnemonic, Quintessence is illustrated as a five point guiding star, where each point in itself is a good reason to regulate or pay for parking.

Quintessence - The logic of regulated and paid parking
