Please feel free to join the Q-Park Information Platform. This platform shares parking related expert articles on a regular basis. They are easy to read and easy to share with your social networks.

## Q-Park Student Award

The Q-Park Student Award is an award organised annually by Erasmus University Rotterdam and Q-Park.

The Q-Park Student Award is a competition open to students studying at European colleges and universities. Any bachelor or master project related to parking and/or mobility, in the broadest sense of the word, is eligible for the award.

During the event, the students who submitted the three best projects will present their results.

**Date:** Thursday, 3 November 2022

**Theme:** Urban Mobility & Behaviour

[Click here to register](#)

## Key note speakers

**Frank De Moor** knows a thing or two about parking today and has a clear vision on parking (and mobility) in the future. Frank is CEO at Q-Park BV and a member of the Q-Park Student Award jury. He will present

the award to the students with the best theses.

**Giuliano Mingardo** is specialised in parking policy and mobility management and regularly advises (local) governments and companies on these issues. He will welcome you and introduce this year's

theme 'Urban Mobility & Behaviour'. Giuliano is senior researcher at Erasmus University Rotterdam.

**Larissa Suzuki** (Prof Dr) has been one of Google's "OCTOs", driving innovation and bringing futuristic technologies to fruition. Her continued academic work is at UCL, Université du Québec, and University

of Oxford and Harvard University, where she serves as an Honorary Associate Professor in Computer Science, Associate Professor in Management Science and guest Lecturer, respectively.

## Event moderator

**Theo This** is an innovator and inspirator with a more than average interest in solutions for smart cities and smart mobility. He will guide us through the event, Theo loves to challenge all guests to

engage with the speakers, students and each other.

## Basic event information

| Date: 3 November 2022

| Agenda:

| 13:00 Welcome reception

| 14:00 Key note speakers

| 15:00 Discussion & break

| 16:00 Student presentations & Award ceremony

| 17:00 Networking, beverages & bites

| Venue: Muziekgieterij

| Address: Boschstraat 7, NL-6211 AS Maastricht

| [Click here to register](#)

## How to submit your bachelor or master project

| Submit your research by no later than 3 October 2022.

| Send it to [qurius@q-park.com](mailto:qurius@q-park.com) and [mingardo@ese.eur.nl](mailto:mingardo@ese.eur.nl)

## Up to 3 prizes: €1,500 each

### Q-Park Student Award

Together with Erasmus University Rotterdam, Q-Park BV is organising the **2022 Q-Park Student Award**. This award aims to stimulate students at European colleges and universities to conduct research into parking and mobility.

Any bachelor or master project related to parking and/or mobility with significant added value from an educational and societal perspective will be considered for the award. Projects recently completed or in the final phase can be submitted.

Up to three projects on parking and/or mobility will be awarded a prize worth €1,500. Students will present their work during the Award Ceremony on 3 November 2022 at the Muziekgieterij in Maastricht.

### Requirements

Students, either individually or in a group, can submit their

### Assessment criteria

Research projects will be assessed based on their educational and societal relevance. A research project should provide new knowledge for the parking and/or mobility sector and must be distinguishable from previous research.

The jury will consist of experts from education and the parking sector.

### Practical information

- | Submit your research, English or Dutch, by 3 October 2022
- | Send it to [qurius@q-park.com](mailto:qurius@q-park.com) and [mingardo@ese.eur.nl](mailto:mingardo@ese.eur.nl)
- | Event: 3 November 2022

For more information, please contact Giuliano Mingardo: [mingardo@ese.eur.nl](mailto:mingardo@ese.eur.nl).

## Become a partner

Research performed by applied science and academic students can make valuable contributions to the parking industry.

Are you interested in:

- | advancing the private and public parking sector with relevant research from European students?
- | learning more about
  - | sustainable mobility,
  - | parking demand and behaviour,
  - | trends and developments,
  - | new players?
- | bridging the gap between research and practitioners?
- | increasing knowledge and embracing opportunities in the parking sector?

We more than value your commitment and sponsorship to increase relevant knowledge and accelerate the journey towards sustainable urban mobility.

If you would like to explore the possibilities, and benefits, of becoming a Student Award Partner, please contact [sacha.oerlemans@q-park.com](mailto:sacha.oerlemans@q-park.com).
